

Home Office Framework

24 March 2017

SA Group Ltd, specialists in procurement and cyber-security, are pleased to announce the award of a place on the Quality Assurance & Testing for IT Systems (QAT) framework agreement which is managed by the Home Office Testing Managed Service Team and the Crown Commercial Service. The Quality Assurance & Testing for IT Systems framework agreement is planned to create a central, flexible, iterative route to market, allowing any public sector customer to buy test, design & consultancy services. This framework agreement plans to last 24 months.

Crown Commercial Service, part of Cabinet Office, brings together policy, advice and direct buying; providing commercial services to the public sector and saving money for the taxpayer. The Home Office Testing Managed Service Team, provides a managed service for all of Home Office and other customers including: MoJ, DEFRA, Education, DECC, MHRA, and more recently, Cabinet Office.

Under this framework SA Group will be responsible for providing:

- Test, Design & Consultancy Specialists
- Load & Performance Testing
- Functional Testing
- Infrastructure Testing & Environments
- Operational Acceptance Testing & DR
- QA Testing Management
- Strategic QA Consultancy
