

ENTERPRISE SECURITY ARCHITECT

Who we are

SA Group is a Cyber Security, P3M and Technical consultancy working in vital and highly complex Public Sector and Commercial markets. We specialise in helping clients in technical and digital environments scope and deliver against their critical challenges. We have bold expansion plans, focusing on delivering an expanded service offering to several market sectors.

We have successfully delivered programmes, projects and technical solutions in the areas of IT, risk, procurement, assurance and certification compliance along with elements of security, from physical access to technical controls for HMG and industry.

We're based in a beautiful rural location approx. 1 mile from Westbury, Wiltshire. The company consists of approximately 50 consultants and business support professionals but is growing all the time! We're a highly energetic, tenacious and meritocratic team, and pride ourselves on our grown up, people focussed values. We want our people to stay with us and focus strongly on training and development opportunities within the company.

SA Group is proud to be an equal opportunities employer.

Role summary

You'll be delivering complex and innovative services to MoD or UK Government programmes including secure communications and applications projects.

You may have skills in designing networks, infrastructures, applications, security architectures or entire enterprise solutions

Key qualifications:

You'll apply your previous experience from secure government or defence / military projects to create secure and innovative solutions to simplify some of the complex challenges that MoD projects face.

Experience with architectural frameworks such as MODAF, DODAF or Zachman is preferred but not essential.

Other tools you may have used include:

- MOOD
- UML
- SysML

Also important is an all round knowledge of products on the market and a creative, curious and professional nature enabling you to identify solutions and influence stakeholders with your ideas.

Due to the potential involvement on government related projects candidates that don't already hold UK security clearance will be required to be eligible for UK security clearance.

SA GROUP
CYBER | P3M | TECHNICAL

Professional Development opportunities:

SA Group are passionate about ongoing personal development of our employees, so we allocate yearly budget to professional certification in areas of your interest that are relevant to the company.

If you haven't already then SA Group will support you to achieve a relevant chartered status aligned to your skills with authorities such as IET, BCS, INCOSE, CMI. As a business we will also support training aligned to our P3M practice such as PRINCE, APM, AGILE, MSP, ITIL, MOR or ISTQB.

To apply please send your CV and a short covering letter to:
